ORDER:

In the reference second read above, the Engineer-in-Chief (R&B) Roads, Hyderabad stated that the Superintending Engineer (R&B) Srikakulam has submitted that to instruct to widen the existing carriageway to four lane for the balance reach i.e from Km.0/0 to 1/2 so as to streamline the traffic on the road which leads to Dattatreya Temple. Further in view of the facts that the existing Old Bridge at Gujaratipeta in Srikakulam town across the river Nagavali is proposed for dismantling due to sanction of new Bridge, the Old Bridge at Gujaratipeta is being used by the public from the adjacent Mandals and wage seeking population from the nearby villages, besides the traffic from Visakhapatnam and Vizianagaram. There is no other go for them except to use the new Nagavali Bridge approaches proposed for widening from NH.5 to Dattatreya Temple, if the old Bridge is dismantled. All the buses and lorries which are entering into the town are using this existing road. The working reach is only from Km 0/0 to 1/2, which is the left over two lane road proposed for four laning, due to present congestion of traffic on the existing road. If the aforesaid old bridge is dismantled, there will be heavy traffic interruption and probability of causing accidents on the existing road. So, it is very essential to widen the said balance reach of 500 metres from two lane to four lane. Further Stage-I approval is not required for this work as detailed instructions completed and designs finalized.
